

April 15, 2020

Dear Valued Customer,

As most of you are aware, the State of Michigan has shut down all non-essential businesses per our Governor's Executive Order (EO 2020-21 and EO 2020-42). This shutdown started at midnight, March 23, 2020 for a period of three-weeks then it was extended for an additional three-weeks with EO 2020-42 until April 30, 2020. The Welker Executive Management Team will comply with this order and we are projecting to be back to full operation by May 4th, 2020. With that said, we have suspended all customer deliveries for this time period.

Our order entry department will remain open remotely during this shut down period and will handle all of your questions. As we gather more information, we will share it with our customer base. We thank you for your patience.

As we are entering an unprecedented time in our great nation, we believe that we have a superior government that has a tremendous task force in place to combat this horrible epidemic.

Respectfully,

Scot Bigelow
Welker Engineered Products
Sales and Marketing Manager
